SUMMARY

Dynamic Full-Stack Developer with a proven track record in scalable backend systems, automated data pipelines, and responsive user interfaces. Skilled in designing robust task processors using Node.js, Redis, and BullMQ to build user re-engagement pipelines. Experienced in cloud deployment (AWS EC2/S3), NLP (ELECTRA), and optimized algorithms (Aho-Corasick) to scrape and parse complex data structures at scale.

SKILLS

Programming & Querying: JavaScript, TypeScript, Python, SQL

Frontend: React.js, Next.js, Tailwind CSS

Backend: Node.js, Express.js, BullMQ, Redis, MongoDB, REST APIs

Cloud & DevOps: AWS EC2, AWS S3, Docker, Git/GitHub

AI/ML & Data: NLP (ELECTRA), Aho-Corasick, Data Pipelines, Web Scraping

EXPERIENCE

Full Stack Developer

Feb 2026 – Present

Mployee.me

Noida, India

- **Engineered an automated re-engagement pipeline** using Node.js, Redis, and BullMQ to monitor user inactivity across **3,000+ registered users**; triggered targeted follow-up emails with partial search results after 5 minutes of abandonment, improving platform return rates by **30%**.
- **Architected and deployed 5+ scalable web scrapers** on AWS EC2 aggregating **10,000+ job listings** from major platforms (Workday, Unstop); stored and exported parsed results as structured CSVs in AWS S3, reducing manual data collection time by **80%**.
- **Implemented advanced parsing algorithms and NLP models** — Aho-Corasick automaton and ELECTRA — achieving **90%+ accuracy** in extracting required years of experience and core skills from complex job descriptions.
- **Developed and integrated a full-featured Admin Panel** for blog and content management, reducing content publishing time by **40%** through streamlined MongoDB schemas and an intuitive front-end UI.

Full Stack Developer Intern

July 2025 – Sep 2025

Admire Softech Pvt Ltd

Delhi, IN

- Managed backend development for **4 travel websites** using Node.js, Express.js, MongoDB, and REST APIs, handling content modules including destinations, itineraries, blogs, and images for **500+ listings**.
- Deployed and managed full-stack applications on Hostinger VPS with Nginx, SSL, and domain configuration, achieving **99% uptime** across all production environments.

PROJECTS

Chat Fusion | *React.js, Node.js, Express.js, MongoDB, REST APIs*

[Github](#) | [Live](#)

- Built a secure MERN stack real-time messaging platform with **multi-user chat rooms** and **Google Cloud Speech-to-Text API (AI/ML)** for voice-to-text input, enhancing accessibility.

AWARDS & CERTIFICATIONS

Full Stack Web Development Bootcamp (Udemy) – 374 lectures: React.js, Node.js, MongoDB, Web3.

Top 5% – Smart India Hackathon (SIH) Qualifier – Led a team of 5 in the national-level hackathon.

300+ DSA Problems Solved – LeetCode & GeeksforGeeks (arrays, trees, graphs, DP).
